Hi Glenn,

Attached is the NOV that was issued to GH Dairy #1 on February 4, 2011. This NOV letter was also cc'd to Ken Greenberg and Jamey Watt. Rainfall records for the Chino/Ontario area from Dec 16 to Dec 22, 2010 indicate the storm events did not exceed the 25 year, 24-hour return storm criteria. As per Section VII.C.3.a of Order No. R8-2007-0001, GH Dairy #1 failed to "...maintain containment structures..." This is the critical violation. There were other violations of the permit, such as failure to monitor and report, that I will send you in a subsequent email.

FYI, I will be in the field this morning and back in the office this afternoon at which time I can reply to any follow-up you might have.

Ed
